### Installing the fixture *please ensure the electrical breaker is switched off before commencing*

- 1 Attach the supplied mounting bracket (A) with the two supplied mounting bolts (B) to a J-Box, not supplied. Making sure the electrical supply wires from the J-Box are inserted through the mounting bracket.
- 2 Carefully attach the Water glass diffuser (D) by placing it onto the aluminum rail on the fixture assembly (C).
- 3 Attach the Glass brackets (E) to each end of the fixture assembly (C) and secure with supplied screws.
- 4 Connect the supply wires to the fixture wires using the supplied electrical wire connectors (G). White supply wire to the White fixture wire, Black supply wire to Black fixture wire and the ground Bare Copper or Green wire to the Green fixture wire. Once the electrical wire connectors are securely fastened it is recommended to tape these connectors with electrical tape.
- 5 Attach the fixture assembly (C) to the mounting bracket (A) and secure with supplied screws (G).
- 6 Switch on the electrical breaker switch and your new fixture is ready for many years of trouble free use
